## OUR PRINCIPALS

## OUR CLIENTS

## Chairman Message

Starting from scratch in the year 1995, we have put vigorous efforts in making NEWTECH pipes a well-known brand as what it is today. Following the tag-line that we decided at the start of our company “**Committed to Excellence**”, we transformed this spirit to our Team Members to remain committed to provide best quality products in the market and live up to customer expectations. This determination has resulted in NEWTECH becoming the leading manufacturers of synthetic pipes & fittings in Pakistan.

Our vision in transforming the NEWTECH into its shape of today and taking it to the next level, in coming years – is to remain “Committed to Excellence” to embark on a journey of Modernism & Brilliance.

We, as a pipe manufacturing company has expectation to become a leading innovator amongst others within the plastic industry through continuous incorporation of feedback from our valued clients that we keep at our utmost priority as quality is our priority.

At NEWTECH, let us take you to advance levels and take care of your future generations by providing durable and reliable pipe system. Let NEWTECH enlighten you with excellence and competence along the way.

Thank you.

**Muhammad Kazim Abbas**  
Chairman & Founder

## Who Are We?

NEWTECH is one of the leading names in Plastic pipes industry in Pakistan. From a humble beginning in 1995 and with lots of efforts and hard work, the company soon grew into a multi-million revenue generating manufacturing unit with customers spread nationwide. The company uses well equipped state of art manufacturing unit, well established marketing network, a team of dedicated professionals, well defined management hierarchy and a portfolio consisting of various technologically advanced range of piping products. From its inception the company adopted a continuous improvement attitude that insured dependable customer service, honest communication and tremendous employee participation.

The company manufactures the HDPE, UPVC, PPRC & MDPE Pipes and Fittings as well allied accessories under the popular brand name NEWTECH. It accomplishes the quality of its products through an adopted and certified integrated quality management system in accordance with ISO 9001:2015 Standards and production control system in accordance with the ISO-4427/DIN-8074/DIN-8075/BSS-3505 through Standards as well as periodic tests in accredited laboratories.

The raw materials for production are imported from first-class World suppliers, which ensure the high quality of our products. Our products are specially used in Water Distribution, gas conveyance, protection of optical cables, Construction, Government Enterprises, Irrigation, Agriculture, Industry and other sectors as well as in mega projects.

## Our Mission and Vision

Our mission is to provide prime quality products according to National and International Standards and excellent services to the customer's entire satisfaction. We sincerely feel that there is no limit to the high standard of quality; one can meet and beat the competition when the product quality is commendable.

## Our Quality Standards

The sizes and specifications of all our products are in accordance with ISO, DIN, BS, ASTM and National Standards (PS). Our Unit is equipped with a modern test laboratory, which comprises of state-of-the-art lab testing equipment's and by qualified technical staff.

- ◆ HDPE Pipes are manufactured in compliance with the ISO-4427, DIN 8074/75 standards.
- ◆ MDPE Pipes are manufactured in compliance with the ISO-4437, ASTM D2513 & DIN-807 standards
- ◆ PPRC Pipes are manufactured in compliance with DIN-8077/78 standards
- ◆ UPVC Pipes are manufactured in compliance with BS-3505 & PS-3051 standards.
- ◆ UPVC Electrical Conduit Pipes are manufactured according to BS-6099 standards.
- ◆ HDPE Butt-Fusion Fittings are manufactured according to ISO-4427 standards
- ◆ UPP layered pipes for liquid fuel conforms to EN 14125 standards
- ◆ Compressions Fittings are imported from World Renowned brands.

## Our Services

- Complete Project Support on Turn-Key Basis.
- Complete Technical Support & services.
- Pipe Network Laying & Testing Services
- Trouble Shooting & Repairing.
- Consultancy & Advisory Services.

## State-of-the-art Lab Equipment

**We have in-house testing for the following:**

- Melt Flow Rate (MFR) Index
- Heat Reversion Test
- A universal testing machines
- Dichloromethane test
- Impact Test
- Hydrostatic Pressure Test

## HDPE (High Density Polyethylene) Pipeline & Fitting Systems:

HDPE Pipes is a cost-effective solution for several piping problems in Metropolitan, Municipal, Industrial, Underwater, Mining, Landfill Gas extraction, Cable duct and agricultural applications. Our pipes are well tested and proven, effective for underground, above ground, surface, under water as well as floating pipe applications.

Polyethylene pipes can carry potable water, wastewater, slurries, chemicals, hazardous wastes, cables and compressed gases as well as oils. PE pipes have the lowest repair frequency per Kilometer of pipe per year compared with all other pipe materials used for urban water and gas distribution.

Our HDPE pipes will meet all your requirements of long service, trouble-free installation, flexibility, resistance to corrosion and chemicals. NEWTECH's HDPE pipes are strong, robust, non-toxic, light in weight and resistance to corrosion and have been widely adopted in a variety of piping system and are replacing most pipes of conventional materials.

### Benefits of HDPE Pipe:

- ◆ Light in weight
- ◆ More flexible than other metal-based pipe, such as -GI, Stainless Steel, Black Iron, and Copper etc.
- ◆ Coating of the HDPE pipe is quite smooth
- ◆ Capable to resist from environmental effects
- ◆ It can defy pipeline Corrosion
- ◆ Can protect form Frost & Rodent
- ◆ Hygienically Safe (Food Grade)
- ◆ Easy to install and handle
- ◆ There is a least chance to conduct heat
- ◆ Abrasion free
- ◆ Has Long Life (approx. 50 Years)
- ◆ Saves Energy

### Applications:

- ◆ Water supply
- ◆ Telecommunication Industry for Cable Protection
- ◆ Sewerage & Drainage
- ◆ Irrigation/farming/Tube wells
- ◆ Sprinkler Irrigation Systems & Drip Irrigation Systems
- ◆ Construction Industry
- ◆ Gas and oil Transmission
- ◆ Industrial Effluents
- ◆ Chemical Industries

### Our HDPE Pipe Range & Production Capacity:

Our pipes are available in outer diameters from 20mm - 90mm (in rolls – Long Lengths) and in the diameter from 110mm to 1000 mm in straight lengths of 6 & 12 Meter for pressure series PN-6, PN-8, PN-10 PN-12.5, PN-16, & PN-20. PN-25 and higher can be manufactured on special order.

## Physical Properties of PE-100 Pipe Material

| Characteristics                  | Units              | Value              |
|----------------------------------|--------------------|--------------------|
| Density                          | gm/cm <sup>3</sup> | 0.95               |
| Design Stress                    | MPa                | 8                  |
| Tensile Strength At Yield        | N/mm <sup>2</sup>  | 23-25              |
| Flexural Modulus (Bend Creep)    | N/mm <sup>2</sup>  | 1000-1200          |
| Elongation At Break              | %                  | > 600              |
| Crystallite Melt Range           | °C                 | 128-132            |
| Surface Resistance               | Ω                  | > 10 <sup>14</sup> |
| Coefficient Of Linear Expansion  | mm/m*K             | 0.13               |
| Heat Conductivity At 20° C       | W/m*K              | 0.38               |
| Impact Strength At 23 Deg C      | Kj/m <sup>2</sup>  | 83                 |
| Brittleness Temperature          | °C                 | <-70               |
| Shore Hardness                   | D                  | 62                 |
| Melt Flow Rate (Melt Flow Index) | g/10min            | 0.15               |
| Water Absorption                 | %                  | 0.01-0.04          |

## Technical Specifications:

PE 100 Pipe Dimension as per ISO 4427, DIN 8074/8075 Specifications:

| Outer Diameter | SDR 41 | SDR 26 | SDR 21 | SDR 17 | SDR 13,6 | SDR 11 | SDR 9 | SDR 7,4 |
|----------------|--------|--------|--------|--------|----------|--------|-------|---------|
|                | PN 4   | PN 6   | PN 8   | PN 10  | PN 12,5  | PN 16  | PN 20 | PN 25   |
|                | W.T    | W.T    | W.T    | W.T    | W.T      | W.T    | W.T   | W.T     |
| mm             | mm     | mm     | mm     | mm     | mm       | mm     | mm    | mm      |
| 20             | -      | -      | -      | -      | -        | 2.0    | 2.3   | 3.0     |
| 25             | -      | -      | -      | -      | 2.0      | 2.3    | 3.0   | 3.5     |
| 32             | -      | -      | -      | 2.0    | 2.4      | 3.0    | 3.6   | 4.4     |
| 40             | -      | -      | 2.0    | 2.4    | 3.0      | 3.7    | 4.5   | 5.5     |
| 50             | -      | 2.0    | 2.4    | 3.0    | 3.7      | 4.6    | 5.6   | 6.9     |
| 63             | 1.8    | 2.5    | 3.0    | 3.8    | 4.7      | 5.8    | 7.1   | 8.6     |
| 75             | 1.9    | 2.9    | 3.6    | 4.5    | 5.6      | 6.8    | 8.4   | 10.3    |
| 90             | 2.3    | 3.5    | 4.3    | 5.4    | 6.7      | 8.2    | 10.1  | 12.3    |
| 110            | 2.7    | 4.2    | 5.3    | 6.6    | 8.1      | 10.0   | 12.3  | 15.1    |
| 125            | 3.1    | 4.8    | 6.0    | 7.4    | 9.2      | 11.4   | 14.0  | 17.1    |
| 140            | 3.5    | 5.4    | 6.7    | 8.3    | 10.3     | 12.7   | 15.7  | 19.2    |
| 160            | 4.0    | 6.2    | 7.7    | 9.5    | 11.8     | 14.6   | 17.9  | 21.9    |
| 180            | 4.4    | 6.9    | 8.6    | 10.7   | 13.3     | 16.4   | 20.1  | 24.6    |
| 200            | 4.9    | 7.7    | 9.6    | 11.9   | 14.7     | 18.2   | 22.4  | 27.4    |
| 225            | 5.5    | 8.6    | 10.8   | 13.4   | 16.6     | 20.5   | 25.2  | 30.8    |
| 250            | 6.2    | 9.6    | 11.9   | 14.8   | 18.4     | 22.7   | 27.9  | 34.2    |
| 280            | 6.9    | 10.7   | 13.4   | 16.6   | 20.6     | 25.4   | 31.3  | 38.3    |
| 315            | 7.7    | 12.1   | 15.0   | 18.7   | 23.2     | 28.6   | 35.2  | 43.1    |
| 355            | 8.7    | 13.6   | 16.9   | 21.1   | 26.1     | 32.2   | 39.7  | 48.5    |

**SDR** – Standard Dimension Ratio      **W.T.** – Wall Thickness      **PN** – Nominal Pressure

### NOTE:

1. Pipes are available in outer diameters from 20mm to 90mm in Rolls and from 110mm to 1000mm in straight lengths of 6 & 12 Meter
2. Pipe size above 315mm can be supplied on special request

### HDPE FITTINGS

NEWTECH is Authorized Agent for Internationally well-established fitting manufacturers. We import, stock & provide the fittings (Compression and Butt-Fusion) to our customers, as & when required.

On the other hand, for Butt-Fusion fittings, we are proud to be the first manufacturers of these fittings in Pakistan under the brand name of "PLAST-1"

### About PLAST-1:

PLAST-1 is one of the new names in Pakistan's Plastic pipes industry being getting immense recognition due to its quality products. The company is USA registered and was established in 2016, after demand for quality HDPE fittings increased systematically. Today, it is a prominent player in the HDPE fittings manufacturing industry and has become synonymous with the term quality assurance.

### HDPE ELECTRO-FUSION FITTINGS

The use of PE electrofusion fittings with polyethylene pipes allows the creation of fully sealed PE pipe networks.

Our Electro Fusion fittings are imported from World Renowned European brands according to international standards. Our electrofusion pipe fitting system offers high performance and ease of installation.

### HDPE COMPRESSION FITTINGS

We have our hands on one of the top compression fittings manufacturers in the world known as **NORMA GROUP** which produces compression fittings under the brand name of **FISH**.

We are proud to be their Sole Distributor in Pakistan due to our brand identity and sales turnover. These fittings are made according to ISO 4427 standards and comply with all international specification. The quality of the materials used makes these FISH fittings resistant to etching by numerous chemical substances and to UV-rays.

## MDPE (Medium Density Polyethylene) Pipes for Transportation of Gas

NEWTECH Medium Density Polyethylene (MDPE) Pipes are suitable for distribution of natural gas due to their characteristics such as strength, flexibility, inertness, light weight and ease of maintenance and installation. NEWTECH pipes are maintenance free with a design life of over 50 years under normal operating conditions.

***MDPE PIPES Technical Specifications according ISO 4437 and ASTM D-2513 Standards: are made in SDR-11. These are available in ¾", 1", 1¼", 1½, 2" and 4" sizes.***

We manufacture these pipes for GAS service as per ISO 4437 standards which undergo rigorous quality checks throughout the entire production process to ensure their reliability and effectiveness for gas transportation. Pipes are available in coils in order to reduce the number of joints to make a cost-effective choice for contractors and clients. Pipes of bigger diameter are available in straight lengths of 6 & 12 meters. The jointing can be done by Butt Fusion jointing methods, providing a completely homogeneous leak free system.

## UPVC (Un-plasticized Poly Vinyl Chloride) PIPES

UPVC's intrinsic properties make it suitable for a wide variety of applications. These Pipes have excellent chemical resistance across its operating temperature range, with a broad band of operating pressures. Due to its long-term strength characteristics, high stiffness and cost effectiveness, uPVC systems account for a large proportion of plastic piping installations. These are biologically and chemically resistant, making it the plastic of choice for most household sewerage pipes and other pipe applications where corrosion would limit the use of metal.

uPVC Pipes are manufactured in diameters ½" to 24" [in straight length up to 6 Meter] for pressure series Class B [6 Bar], Class C [9 Bar], Class D [12 Bar] and Class E [15 Bar].

### Advantages of uPVC Pipes:

- ◆ PVC pipes have clear environmental advantages over traditional materials
- ◆ PVC is a low carbon plastic; PVC pipes require less energy and fewer resources to manufacture
- ◆ Due to their low weight, less energy is used when transported
- ◆ Strong and lightweight
- ◆ Low cost and long service life
- ◆ Corrosion & Resistance
- ◆ Temperature & Pressure Resistance

### Applications:

- ◆ Water Mains & Potable Water Services
- ◆ Cold Water Plumbing Services
- ◆ Drainage Installations (Domestic & Industrial)
- ◆ Effluent lines
- ◆ Chemical Plant Installations
- ◆ Brine lines- Tanning Plant, Ice Rinks
- ◆ Non-Explosive Dry Materials Handlings- Sand, Cement, Rock Salt Plastics Compounds
- ◆ Emergency Repairs to damaged pipelines in all materials
- ◆ Surface Water Drainage
- ◆ Tube well Casing and strainer
- ◆ Irrigation Farm and range irrigation-system and sprinkler system
- ◆ Horticulture and greenhouse Irrigation System
- ◆ Irrigation for golf courses and sports grounds

### UPVC Pipes specifications according to BSS 3505 standards:

| Nominal Diameter | Class B (6 bar)              | Class C (9 bar) | Class D (12 bar) | Class E (15 bar) |
|------------------|------------------------------|-----------------|------------------|------------------|
|                  | Average Wall Thickness in mm |                 |                  |                  |
| 1/2"             | -                            | -               | -                | 2.1              |
| 3/4"             | -                            | -               | -                | 2.5              |
| 1"               | -                            | -               | -                | 2.7              |
| 1 1/4"           | -                            | -               | 2.7              | 3.2              |
| 1 1/2"           | -                            | -               | 3.0              | 3.7              |
| 2"               | -                            | 3.0             | 3.7              | 4.5              |
| 2 1/2"           | -                            | 3.5             | 4.5              | 5.5              |
| 3"               | 3.4                          | 4.1             | 5.3              | 6.5              |
| 4"               | 4.0                          | 5.2             | 6.8              | 8.3              |

## PPRC (Polypropylene Random Copolymer) PIPES AND FITTINGS

PPRC stands for polypropylene random Copolymer, can provide very high performance even under high and low temperatures and pressure conditions. Heating and hot water systems used in freshwater, PPRC pipes have ultra-high molecular structure due to a high level of use and durability.

These pipes are suitable for all sanitary & portable water applications. Our pipes & fittings are made of materials known for its strength & resistance to high temperatures, their properties are ideally suited to the requirements for any carrier of drinking water & hot water transfer. Our PPRC Pipes are manufactured as per the norms of DIN 8077/8078. These pipes are extremely reliable & offer convenient & reliable installation in any plumbing system. Built to perform in tough conditions, they have extremely long service life.

PPRC Pipes are manufactured in diameters 20mm to 110mm [in straight length up to 4 Meters].

### Benefits of PPRC Pipes:

- ◆ A service lifetime over 50 years | Environmentally friendly
- ◆ Chemical stability
- ◆ High temperature resistance
- ◆ Higher flow capacities
- ◆ Reduces energy losses
- ◆ Suitable for potable water and food processing Industries
- ◆ Quick & Easy Installation
- ◆ Easy connectivity over a complex network
- ◆ Safe environment with recyclable ability
- ◆ Resistant against heat and chemical effects
- ◆ High resistance against chemical substances
- ◆ Maintains heat and sound insulation

### Applications:

- ◆ Hot / Cold and chilled water piping
- ◆ Industrial piping for aggressive fluids
- ◆ Compressed Air
- ◆ Air Conditioning / Refrigeration
- ◆ Food and Beverage Processing

### PPRC Pipe Dimensions Conforming to DIN 8077/8078 Specifications

| Outer Dia (mm) | PN-16 (for Cold Water) |                   | PN-20 (for Hot & Cold Water) |                   |
|----------------|------------------------|-------------------|------------------------------|-------------------|
|                | Wall Thickness (mm)    | Internal Dia (mm) | Wall Thickness (mm)          | Internal Dia (mm) |
| 20             | 1.9                    | 16.2              | 3.4                          | 13.2              |

## HDPE BUTT-FUSION WELDING MACHINES

The jointing process of HDPE Pipes is known as Butt Fusion (B/F) welding. The B/F Machines scrape, heat and weld the HDPE pipe together. The B/F Machines come with Manual or Electric Hydraulic. All these machines need a power supply for the heater plate and milling cutter/scrapper/facer. Electric Hydraulic machines also use the electricity supply for the hydraulic system, used to hold the pipe while it is being scraped, heated and during cooling.

NEWTECH maintains stock of quality Butt Fusion Machines, imported from well reputed brands, which are readily available for our clients, as per their requirements.

## SLUICE VALVE & FIRE HYDRANTS

Valves are used to regulate the flow of water and to minimize the wastage of water. Valves either start/stop the flow of water or control the speed and capacity of water or direct the flow in one direction only. Sluice Valve functions strictly to either start or stop the flow.

We have our expert team which provides complete installation & provision of these equipment's. Our major clients for Sluice valves & fire hydrant systems are high rise buildings and housing societies.

F. No. 5(3)/2012-EMP-Dir (Lab.NEQS)

Dated: - 8<sup>th</sup> August, 2012

Subject:- **COMPLIANCE WITH ENVIRONMENTAL MANAGEMENT PLAN (EMP)**

I am directed to refer to your letter No. NT/EPA/120709 dated 9<sup>th</sup> July, 2012 on the subject cited above.

2. It is stated that after careful review of Environmental Management Plan (EMP) of your factory located near Tarnol Islamabad and followed by queries, comments, clarifications / replies and subsequent site visit by the Environmental Monitoring Team (EMT), Pakistan Environmental Protection Agency (Pak-EPA) confirms that M/s New Tech is complying with the Environmental Management Plan (EMP) submitted by them.

3. You are however, advised to submit quarterly report on regular basis to this agency on implementation status of the EMP.

  
(M. Ahsan Rafi Kiani)  
Deputy Director (EIA/Mnt)

**Pre - Qualification of Your Firm**

- FFBL is pleased to inform you that your firm / company have been provisionally registered for a period of six months. Further extension will be granted on your previous response/ performance.
- We sincerely hope that you will abide by the following instructions issued from time to time. These documents will serve as mutual understanding between FFBL and your company.
  - In case your firm fails to complete all assigned Purchase Order without giving any notice or information in writing or contravene any clause of Purchase Order the FFBL will have the right to impose penalty for such contravention. In this connection, the decision of the company will be final and binding upon your firm / company.
  - That FFBL also reserves the right to cancel the Purchase Order / contract with immediate effect upon contravention by your firm / company of any of this obligation under this contract.
  - You will give positive response to each quotation with competitive rates. In case your firm fails to respond to three consecutive tender, company reserves the right to de-list your firm from approved list of pre-qualified registered vendor.
  - You will provide the material within stipulated, delivery period otherwise penalty will be imposed on you.
  - Quality of material should be according to the specification given in Purchase Order.
  - Material if rejected will be replaced without delay / extra charges.
  - 3 x Samples will be provided free of cost, for approval / acceptance before delivery of material, when required.
  - Bank guarantee will be provided by the vendor in case of advance payment, as per FFBL format.
  - Unsatisfactory performance / conduct rendered by you at any stage may lead to the action:
    - Blacklisting.
    - Removal / Cancellation of Registration.
    - Embargo.
    - Purchase at risk and cost of firm.
  - Material will be delivered with MTC (of an accredited lab) original certificate. Where required.
  - Your firm will not share the correspondence with any other person / authority without in notice of FFBL.
  - This office will have the right impose penalty of its own choice (not more than 10% of total purchase value items) on late delivery or price reduction on substantial items if item is accepted) impose.

Subject: **USE OF HIGH DENSITY POLYETHYLENE PIPE (HDPE)**

Reference: Your letter 14/07/2009 on the subject matter.

I am directed to inform you that competent authority has provisionally approved your factory as manufacturers of High Density Polyethylene (HDPE) pipe and fittings, to be used for CDA's work. The products to be supplied to CDA or its contractors shall conform to ISO, DIN and EN standards and instructions given in the enclosed specifications prepared by CDA under the title "Specification for High Density Polyethylene (HDPE) pipes fittings and Accessories".

It may be noted that in case, any deviation in the manufacturing of pipe and fittings, other than specified in the above said standards is found to be below the required standards, your name would automatically stand removed from the approved list of manufacturers of CDA for the subject material.

**Subject: Company Registration**

Dear Sir/ Madam,

We are pleased to inform you that your company has qualified and is now among MPCL's approved Vendors. Please note that you have been **Provisionally Registered** with us and are advised to convey the undersigned your Provincial Sales Tax (PST) registration number, General Sales Tax (GST) registration number and exemption status (if any) within three (03) months from the date of this letter, failing which you will not be considered for further business with MPCL. This requirement is in line with Government of Pakistan rules and regulations for conducting business.

You have been provisionally registered to compete for the following commodities/services, provided your company continues to meet relevant MPCL Standards:-

|   |   |
|---|---|
| 1 | Manufacturer of HDPE, MDPE, uPVC, PPRC Pipes & Fittings |
|---|---|

This approval, however, should not be construed as a commitment by MPCL for doing business with you, but your company will have the opportunity, along with other approved sources, to compete, in accordance with MPCL's established policies and procedures.

We would like to thank you for your interest in doing business with MPCL. Should you require any further information, please do not hesitate to contact our office.

Yours faithfully,

Shahid Hussain  
Senior Manager Procurement  
[shahidh@mpcl.com.pk](mailto:shahidh@mpcl.com.pk)

Note: This is the responsibility of the vendor to notify MPCL, of the following -

1. Change of Name/ Address / other credentials.
2. Discontinuation of manufacturing or supply of approved commodities.
3. Change or addition in product/services portfolio/business profile.

Ref: HO/MGA/015/2010 02.08.2010

**M/s. Newtech,**  
Suit No 5, Second Floor, Rohman Plaza, I-10 Markaz,  
Islamabad.

Fax No. 011-4432132

Dear Sirs,

**PRE-QUALIFICATION FOR MANUFACTURER OF P.E. PIPE  
TRIAL PURCHASE ORDER NO. HO/MGA/015/2010**

We would like to inform that you have supplied following quantities of P.E. Pipe against trial purchase order HO/MGA/015/2010.

| Sr. # | P.E. Pipe Size | Quantity (Mtrs) |
|-------|----------------|-----------------|
| 1.    | 1-1/4"         | 4,000           |
| 2.    | 2"             | 2,000           |

The performance / test of above supplied quantities of P.E. Pipe has been checked and found according to the specifications laid down in the purchase order. Please note that coil diameter of 1-1/4" dia X 100 meter roll was found extra large as compared to previous rolls of same dia in use, which created too much problem during transportation / laying. You are therefore, advised to reduce coil diameter for easy transportation for future supply.

M/s. Newtech, now stands pre-qualified in SNGPL as manufacturer of P.E. Pipe sizes upto 2" and may participate in our future tenders.

Yours faithfully,

**Subject:** ENLISTMENT OF NEWTECH (PVT.) LTD. ISLAMABAD FOR UPVC AND HDPE PIPES IN AJK CSR VENDOR LIST

Dear Sir,

- Reference is made to P&DD letter No. P&DD/RA-125/545-47/2020 dated 01.10.2020, addressed to us by your good self for inclusion of NEWTECH (PVT.) LTD. ISLAMABAD in vendor's list.
- We are pleased to inform you that we have noted the recommendation and included the NEWTECH (PVT.) LTD. ISLAMABAD in the list of manufacturers after reviewing their profile and samples for UPVC and HDPE pipes only.

Thanking you, we remain,

Yours Sincerely,

**Eng. Hasan A. Shraza**

 ISLAMABAD.

**SUBJECT: PROVISIONAL APPROVAL OF THE SOURCE FOR SUPPLY OF THE PIPES OF VARIOUS GRADES AND SPECIFICATIONS INCLUDING CONDUITS FOR ELECTRIC CABLES.**

Dear Messor's,

M/S NewTech are hereby approved for the supply of the pipes of various grades and specifications for water supply, sewerage and gas lines including conduits for electric cables for use in the project "CONSTRUCTION OF MULTISTOREY APARTMENTS AT SECTOR I-12, ISLAMABAD" subject to the following conditions:

- 1) The material supplied should conform strictly to the design and the specifications mentioned in the Contract.
- 2) Notwithstanding with the satisfactory tests of the material at source it would also be subject to necessary tests from the approved independent sources at the cost of M/S NewTech.
- 3) The Employer and the Consultants would not be under any obligation for any agreement or the arrangements between M/S NewTech and the Contractors of the Project.
- 4) In case of unsatisfactory performance or any defects at any stage the material whether paid by the Contractor and approved earlier by the Consultants would be got removed. The respective Contractors may therefore make necessary provision accordingly in their purchase orders or agreements with M/S NewTech.
- 5) This approval is not binding on the Contractors and they are free to buy the material from any other vendor subject to the satisfactory compliance to above including the approval of the vendor/ source by the Engineer or his delegate.

This approval doesn't absolve the Contractors of their contractual obligations towards satisfactory execution and completion of their respective works.

This approval is provisional for a period of 1 year unless extended further. The Engineer and his delegate has the authority to withdraw this approval at any time.

Regards,

ABDUL JABBAR MALANO  
 THE ENGINEER

TO WHOM IT MAY CONCERN

This is to certify that we have been using the HDPE pipes of M/s Newtech in our community water supply and sanitation schemes. The pipes are being used in accordance with the specifications recommended by "World Health Organization", satisfying the standards. The poly ethylene pipes are non harmful to health, non corrosive, and helpful in pollution control, for use in water supply and sanitation schemes. The pipe is economical, long life, viable easy to lay and feasible on technical grounds as well.

Subject: **SANITARY AND SEWERAGE SYSTEM, GILGIT CITY**  
**APPROVAL OF UPVC PIPE MANUFACTURERS FOR SEWERAGE PROJECT**

Reference:

1. SSW/02/09 dated 4<sup>th</sup> August 2023 received in this office on 5<sup>th</sup> September 2023.

Regarding your submission for uPVC sewer pipe material source approval, vide above referred letter, the committee has unanimously approved the below mentioned manufacturers based on comprehensive assessments/evaluations subject to the fulfillment of Terms and Conditions enclosed with this letter as **Annexure - A**. These assessments encompassed visits to the manufacturers' facilities, third-party test results, adherence to project technical specifications for sewer pipes (uPVC) BS EN 1401-1, and consideration of technical input/expert opinion provided by the project consultants.

The approved manufacturers for uPVC sewer pipes are as follows:

1. Newtech industries (Pvt.) Ltd., Islamabad
2. Tetraplast (Pvt.) Ltd., Lahore
3. PakArab Plastic Pipes and Fittings, Karachi

It's crucial to note that the employer's approval does not release the contractor from any contractual obligations outlined in the contract's conditions.

It is strongly recommended to promptly initiate the procurement process for uPVC pipes from the aforementioned approved manufacturers to facilitate the timely and smooth execution of the project.

  
PROJECT DIRECTOR  
Sanitary and Sewerage System, Gilgit City

Encl: Terms and Conditions

C.C: -

1. Director General, GDA Gilgit
2. Project Management Expert/Team Leader, UMA (PMC)
3. All Committee Members

**TERMS AND CONDITIONS IN RESPECT OF APPROVAL OF MATERIAL (UPVC) SEWER PIPE**

The approval of the manufacturers is subject to the following conditions:

1. The sewer pipes (uPVC) deliver to project site shall conform BS EN 1401-1 standards.
2. The approved manufacturers shall continue manufacturing of pipes along with accessories/fittings and joints in accordance with the SDR 34 and SDR 41 for 3N-3 and 5N-4 respectively for each diameter of uPVC pipes as given in the approved Scope/BODs.
3. The joint must be **Bell and Spigot**.
4. Rubber rings shall meet the requirements of the appropriate parts of BS EN 681-1 and be of the EPDM formulation.
5. The color of uPVC pipe must be **Terra Cotta**.
6. The source of **Resin** used for manufacturing of the uPVC pipes must be of **Engro**. And no recycled material shall be added.
7. The contractor must ensure that the approved manufacturer possesses the requisite production capacity of uPVC pipes, as per the demand/requirement of the project.
8. The manufacturer must submit the undertaking for **non-blacklisting** and **no litigation** on manufacturer's QA/QC and production aspects from any Govt. departments or organizations.
9. The contractor must provide complete documents for gate passes, resin procurement, invoice, quantity etc. upon delivery of each shipment/lot of uPVC pipes to the project site.
10. The manufacturer must **affix/engrave** the name of project on uPVC pipes, i.e. **(Sanitary and Sewerage System Gilgit City - GDA)**. It should not be stamped; it must be engraved. The manufacturing date along with the manufacturer's name must also be stamped/engraved.
11. The approval accorded in respect of any of material (uPVC) Source/Factory is liable to termination/cancellation at any stage, if any of the delivered lot/shipment of uPVC sewer pipe to the project site does not conform to the project specifications/standards as a result of the confirmatory tests conducted **80%** from each shipment/lot.
12. It is advised that all the manufacturers must be given equal opportunity while procuring the uPVC pipe. This strategic move aims to mitigate potential production and quality issues and ensure the timely delivery of the required quantity to the project site, thereby avoiding significant delays. Furthermore, it is also advised to establish a fixed percentage of procurement for each approved manufacturer.

Subject: Development Work at CBR Housing Scheme, Islamabad.

Dear Sir,

This is with reference to the water supply work being undertaken at the above site. Keeping in view our endeavor to provide a high level of technical advice, we are always looking for cost effective products. Consequently we are recommending HDPE pipe instead of GI pipe, for water supply, due to the following:

1. Cost effective
2. Long life
3. Hygienical

Moreover M/S New tech the manufacturers of the HDPE pipes have been provided the said pipes for several other organization such as:

4. Air force Housing Directorate
5. Pakistan Atomic Energy Commission
6. Pakistan Council of scientific and industrial Research
7. NRSP ( National Rural Support Program)
8. Life line enterprise (Pvt.) Ltd.

Thanking you and assuring you of our best Services

Yours Sincerely,

MUJEEB AMJAD

Administrator,  
National Assembly Employees,  
Co-operative Housing Society,  
Islamabad

**Subject: Development of National Assembly Employees Cooperative Housing Society (NAECHS) Islamabad. (H D P E Pipes for Water Supply)**

Reference this office letter No. 786 / MKN-CONSULT / NA /2009 / 28, dated: May 23, 2009 & No. 786 / MKN-CONSULT / NA /2009 / 36, dated: June 11, 2009.

It is submitted that samples of pipes for water supply were provided by contractor two times which were not according to specifications and rejected by consultant vide letters referred to above. The contractor was requested to provide samples as per specifications / agreement but he could not provide the samples till now.

The consultant visited a factory (NEWTECH) of manufacturing the pipes and collected samples of 3"dia, 4"dia & 6"dia pipes for water supply, which is recommended for approval.

If agreed the pipes may please be approved.
